## Assembly Instructions

### Tool Required: Phillips Screwdriver

1. Open the Right Secret Storage Drawer (F) and remove the foam packaging that contains the Tray (N). Recycle the packaging and return the Tray (N) to the drawer. See Figure 1 and 1a.

2. There are secret storage areas in the top two middle drawers. To access either of these storage areas, open the Upper Middle Drawer (G). Reach in until you find the Hinged Drawer Stop (W) that is attached to the bottom right sides of the Left Secret Storage Drawer (E) or the Right Secret Storage Drawer (F). Pull the Hinged Drawer Stop (W) forward and then pull the drawer; Left Secret Storage Drawer (E) or the Right Secret Storage Drawer (F) out far enough so you can access the concealed storage space. ## Assembly Instructions

- Place the dresser at its final destination. Rotate the Adjustable Glides (ZB) on the bottoms of the legs and Assembled Foot (O) until the unit is level. See Figure 3.

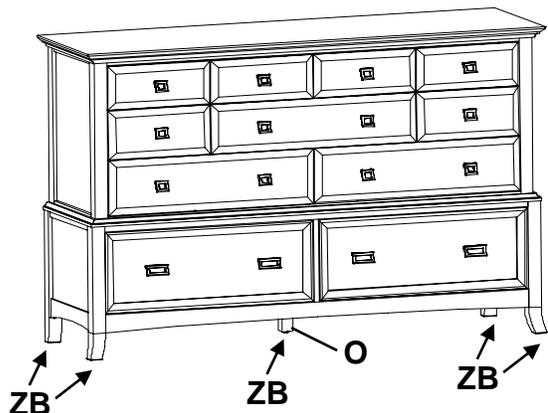

Fig. 3

- Tipping restraint:** Locate two studs in the wall behind the unit. Attach a Clip (T1) to one wall stud with two #8 x 2" Black Screws (T3). See Figure 4a. Attach a second clip to the unit with two #8 x 1" Pan Head Screws (T4). See Figure 4b. Connect the two clips with the Nylon Restraint Strap (T2). Pull the Nylon Restraint Strap (T2) tight so there is no slack. See Figures 4c and 4d. Repeat this procedure to attach the second tipping restraint. If you cannot locate two studs, purchase the proper wall attachment hardware for your type of wall and secure the unit.
