## Assembly Instructions

**Tools Required:** 9/16" or Adjustable Wrench

**Tool Provided:** Leveler Adjustment Key in the Zip bag taped to the Owner's Manual and Safety Guide.

1. Remove the drawers from the Case Assembly (Ac). To do that, pull up on the left Drawer Release Lever while pushing down on the right Drawer Release Lever and pull out the drawer. See Figure 1a. Note where each drawer came from to make sure you place them back into their correct positions.

2. Turn the Case Assembly (Ac) upside-down on a clean protected surface. (Be careful not to engage the touch/spring latch on the pull-out writing surfaces.) Place a Leg (C) at each corner making sure the drilled portions of the legs face the corner blocks. Insert eight 3/8" x 2-1/2" Hex Bolts (ZF) with eight 5/16" Flat Washers (ZE) through the corner blocks and into the Legs (C). Fasten securely. See Figures 2 and 2a.

## Assembly Instructions

3. Turn the table upright and insert the Drawers.

Fig. 3

4. Hang your letter-sized hanging folders either parallel or perpendicular to the front of the drawer. Legal-sized folders must hang perpendicularly. If you do not hang your files perpendicularly, store the Aluminum File Rails (ZC) to use in the future. To hang your files perpendicularly, remove the Plastic File Rails (ZB). See Figures 4 and 4a. There are slots on the sides of the drawers. Insert an Aluminum File Rail (ZC) into the slots nearest to the Drawer Face (F). Insert another Aluminum File Rail (ZC) into the second set of notches for letter-sized folders or the third set of notches to hang legal-sized folders. See Figures 4b and 4c.

## 2401GACe 2401CAFe McKenzie 4-Drawer Desk Assembly Instructions

5. This desk features two pull-out writing surfaces above the drawers that are accessible by a touch-latch mechanism. To access the pull-outs, push firmly in on the ends of the pull-outs and release. Grasp the hand groove on the underside of the pull-out and pull towards you. See Figures 5 and 5a.

6. The center drawer can be used as a keyboard tray or utility drawer. To use it as a keyboard tray, open the drawer and pull down on the front. This unlocks the roller catches. To lock it back into place, push up on the drawer front. The short drawer back allows easy cord access.

7. Place the desk at its final destination. Use the Leveler Adjustment Key (ZN), found in the Zip bag taped to the Owner's Manual and Safety Guide to rotate the Slotted Levelers (ZM) on the bottoms of the legs until the desk is level. See Figures 6 and 6a.
8. Use a protective pad when you use the top of this piece as a writing surface.
